

Horsing Around

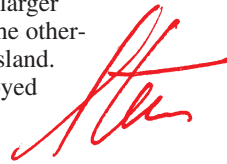

The Voice of the Early Bronco Registry

EDITOR'S "BS" (Bronco Stuff)

Steve Sampson, Editor

The Bronco community lost two important members in late 2007, Betty Monroe and Pat Walsh. Betty had a heart attack on the way to Bronco Daze at Vu but was recovering. A second heart attack was more than her body could handle. Betty and her husband Joe co-founded the Early Broncos Ltd (EBL) in 1981, making it the very first Early Bronco Club in the country.

Betty's efforts promoting the enjoyment of the Early Bronco continued nearly 365 days a year ever since. The EBL subsequently formed the Early Bronco Registry (EBR) as a larger international association of Early Bronco enthusiasts, and Betty was a perpetual EBR officer. If you have ever owned an Early Bronco, she touched you in some way. Pat, along with his wife Whitney and brother DJ, hosted several of our larger Bronco events at DJ's wonderful "Oasis", a true man-made lake in the middle of the otherwise bone dry Mojave Desert that surrounded trees and a rustic bar resting on an island. No friendlier folks can be found anywhere. We will miss them as much as we enjoyed them - a lot!

SEMA Show Report

The SEMA (Specialty Equipment Market Association) Show is the premier automotive specialty products trade event in the world. It draws the industry's brightest minds and hottest products to one place: the Las Vegas Convention Center. The SEMA Show attracts more than 100,000 industry leaders from over 100 countries for the automotive, truck and SUV, marine and RV markets. SEMA Shows draw over 50,000 domestic and international buyers visiting two million square feet of exhibits. Most of your major Early Bronco vendors visit SEMA to find the latest technologies and best sources of new items for our Bronco enjoyment. I spent two days dashing about in search of Bronco related items I hadn't seen before. Here is a partial alphabetical list that just hits the highlights. Check the listed web page if you are intrigued by anything.

ARB - New heavy duty compressor.
www.arbusa.com
